A summary of the updates and resource additions is available at https://media2.proquest.com/documents/whatsnew-abiinform.pdf

and research in the business sector, ranging from journals and trade publication to business case studies and working research papers. Notable resources include full-text access to The Wall Street Journal, The Economist, and Fortune Times; and market information and data from BMI Research, Economist Intelligence Unit and Oxford Analytica.

Resources Highlight: Harvard Business Publishing Collection

A wide range of e-books on business and economics, computer science, and other subject areas published by the Harvard Business Review Press are available for access through the <u>EBSCOhost Database</u>. Additionally, thematic collections of articles entitled 'HBR's 10 Must Reads' provide insights on business trends and contemporary corporate world issues.

Books Recommendations

Lateral Thinking For Management : A Handbook / Edward de Bono

To develop lateral thinking is to acknowledge and embrace the necessity of looking at any problem beyond the vertical, yes/no-dominated system. In his pioneering writing, de Bono explores how the acts of well-informed creativity – emphasis on its function to create over the artistic connotation – enable ideas to be generated and perceived holistically. Harnessing a mind trained to think both vertically and laterally is a foundation of honing effective problem-solving techniques applicable to readers at different points of career and life.

HBR's 10 Must Reads on Mental Toughness / Harvard Business Review Press

With a stronger focus on executive leadership in mind, the collection of 10 articles published by **Harvard Business Review** address the interrelation

between adversity, mental resilience, and workplace performance. The contributors draw on findings from behavioural and cognitive sciences, and assess the function of stress in building motivation towards personal growth and success.

For enquiries and assistance, please contact the Library at infolib@chuhai.edu.hk or 2972 7332 during opening hours.
